Global Oil Management Group

Carlos Fernandez is the director for the Latin American and Caribbean companies owned and operated by GOM. Carlos has been with the company since 2015 and has focused on developing international client relationships and the management and expansion of Oil Terminals in Panama and Puerto Rico for products including Fuel Oil, Diesel and Bitumen.

Mr. Fernandez has worked with major oil trading companies such as BP, Lukoil, Glencore, Gunvor, ExxonMobil, Freeport and Trafigura on developing bunkering, storage, and trading projects through his business relationships in the Latin American market.

Mr. Fernandez received his BA in Economics from Concordia University in Montreal and prior to working with GOM had worked at various companies related to the energy market.
